## Director's Message

We, believe in holistic education for your child, encompassing -academics, co-curricular activities, sports education and life-skills learning. Our endeavour is to strike a balance between the curriculum and activities. We are confident that this school is the best place for your child. We welcome your active interest and involvement in the progress and activities of your child. We look forward for your continuous support.

**Director  
Kids' Academy**

## From The Principal's Desk

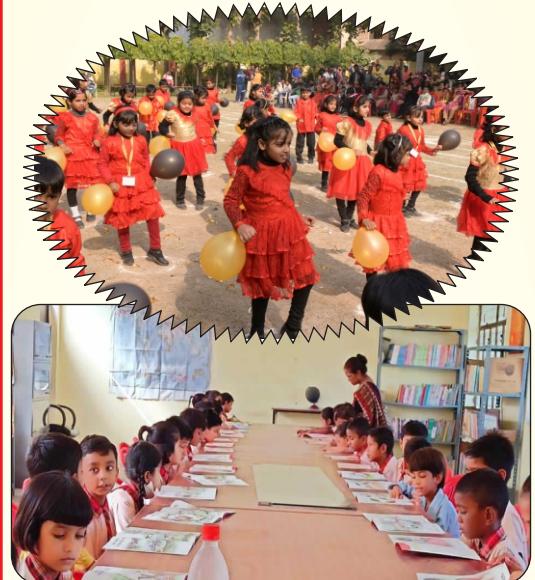

**"The capacity to learn is a gift, the ability to learn is a skill; but the willingness to learn is a choice."** Every child is like a seed which has the potential to grow if it is nourished with love and care under the right guidance. In the current challenging times it is essential that children should not only excel in academics but should also develop courtesy, discipline, smart personality, social sensitivity and be imbued with the traditional values and culture of our country. Our pedagogy is child centric and emphasizes on experimental hands on learning activities such as art, craft, music, dance. An amazing team of experienced teachers groom their individuality and social adaptivity. Our aim is to help children grow into their best selves while preparing them for a bright schooling in future. Kids' Academy and its team will always remain at the forefront of fulfilling the dreams of your child's bright future.

**Principal  
Kids' Academy**

## **PRE PRIMARY SECTION**

As a child's brain develops the fastest between 0-5 years, pre-primary education works as a catalyst in developing cognitive, emotional, and basic literacy and numeracy skills. The pre-primary curriculum makes use of a range of individual and group activities which create a lively and positive learning environment. Games, songs, creative projects, story - telling, role - playing, drawing and painting help develop children's foundational skills in literacy and numeracy. The curriculum prepares children for a smooth transition to a rigorous Primary curriculum.

## **PRIMARY SECTION**

The Primary Curriculum is designed so as to encourage and enable the students to achieve the very best that lies within each one of them and to bring out unique strength and ability in each of them as well. It lays stress on development of linguistic, mathematical and experiential skills. Engagement in computers, arts and craft, music and dance, mind games, outdoor activities, intellectual interaction, yoga and games etc. form an integral part of the Primary School schedule and are actively encouraged to develop multiple skills and intelligencies.

## **THE HIGHER SECTION**

The students of the Secondary School are trained to handle the increasing demands of academics, based on the CBSE curriculum. As the curriculum lays a lot of emphasis on achieving cognitive, affective and psychomotor excellence, at Kids' Academy, we create a perfect blend of academics and Co-curricular activities that help students to make experiences which make meaningful connections to their learning. Innovative and interactive workshops are conducted on issues related to adolescence which promote Life Skills goal setting, decision making and lifelong learning. Career Counselling forms an integral part of this stage. Innovative and interactive workshops are conducted on issues related to adolescence which promote Life Skills goal setting, decision making and lifelong learning. Career Counselling forms an integral part of this stage.

## OUR MISSION

"Achieving Excellence Together" as our motto, we abide to provide a safe haven where everyone is valued and respected. All staff members, in partnership with parents and families are fully committed to students' academic and all round development. Students are empowered to meet current and future challenges to develop social awareness, civic responsibility, and personal growth.

## OUR VISION

Our vision is for each child to develop a curiosity of learning, discover their interests and grow in their love of learning. We also desire to have strong families through parent support/fellowship and skills training.
